A study was made of the aircraft crates at Phuc Yen Airfield (21 13 10N-105 48 40E) in order to determine size, location, transportation equipment available and probable equipment within the crates.

The 24 crates are located along the taxiway in the aircraft dispersal area 2.1 nm north of the runway. Measuring 40 x 10 ft., the crates compare in size to the crates observed at Phuc Yen Airfield on previous photography.

The photography covering the airfield was taken with a malfunctioning camera. Consequently, the quality is extremely poor precluding detailed interpretation. Cloud cover and haze are dominant throughout the mission.

All measurements have been made by the CIA/IAD project analyst. They should not be construed as being mensuration data compiled by the NPIC Technical Intelligence Division.
